Umut ÇALIKUŞU

PERSONAL INFORMATION

Telephone : 0505 026 26 19
Date of Birth : 17.06.2003
Place of Birth : ÇORUM
Marital Status : Single
E-mail :umut54709@gmail.com
Driver's License : B / 2023
Address : KONYA/SELÇUKLU
Website : https://www.linkedin.com/in/umut-çalıkuşu-705306232/

EDUCATION INFORMATION

Konya Technical University, Faculty of Engineering, Department of Computer Engineering (2021-2025) / **Undergraduate**
Naciye Mumcuoglu Anatolian High School, (2017-2021) / **High School**

TEAM EXPERIENCES AND PROJECTS

YAZGIT ETERNAL
Team member (October 2021 - June 2022)

- *Analysis of algorithms suitable for artificial intelligence competition in transportation*
- *Preparation of preliminary design and critical design report*
- *Training the data in accordance with the specification*

ARMAS TECHNOLOGY
Software department captain (October 2022- May 2023)

- *Preparation of preliminary design and critical design reports*
- *Preparation of interface software*
- *Preparation of the image processing software required for the vehicles to detect plants*
- *Coordinating the software team*

WORK EXPERIENCE

Techne Bilisim (Full Time)
Türk Telekom, Software Developer (August 2024 -)

- *Investigation of incoming errors and requests*
- *.net version update within the scope of Legal Project*

- *In accordance with SDLC processes, preparation of technical (TTD-Design Definition Document) and non-technical (GTDRequirement Definition Document) analysis documents according to the BRD-(Business Requirement Document) received from the business unit related to all collection processes of Türk Telekom A.Ş.*
- *Resolving bugs and errors within the Legal Project*
- *Running tests on Soap UI within the scope of Legal Project*
- *Ensuring the integration of BCSC and Opera services within the scope of Legal Project*
- *Integration of the encrypt process within the scope of the Legal Project*
- *Continuous updating of the back-end and frontend structure within the Legal Project*
- *Conducting integration, demo, functional, UAT and live environment tests in pilot dealers for projects with finished development*
- *Coordinating test and development teams*

Techne Bilisim (Intern) *(2024)*

Fimple, Intern

- *Bug fixing of front-end bugs*
- *Analyzing the documents uploaded by users to the system*
- *Creation of daily reports*

CERTIFICATES AND CERTIFICATES OF PARTICIPATION

- Occupational Health and Safety Training (İŞKUR)
- Cyber Security 101 (Cisco-Akbank)
- Image Processing with Deep Learning (DATAI TEAM)
- Object Recognition with YOLOv4 (Udemy)
- Web Programming with React (BTK Academy)
- American Life Language Education

THESES, PROJECTS, EXPERIENCES

Graduation Project (Undergraduate): Konya Technical University (2021-2025)

Visual Inertial Odometry, positioning the vehicle with its own data (imu, camera) without the use of GPS.

Project: Konya Technical University (2021-2025)

Creation of Agricultural Unmanned Ground Vehicle Interface and Image Processing Structures (ARMAS)

Vehicle detection project using YOLO algorithms (YAZGIT-ETERNAL)

Kanban App Clone

Project: Techne Bilisim (2024)

Fimple Banks Project

Project: Techne Bilisim - Türk Telekom (2024-)
